PROFESSIONAL SUMMARY

Motivated Information Technology graduate with strong hands-on experience in full-stack software development, mobile applications, and web-based systems. Skilled in C#, ASP.NET Core, Flutter, Firebase, Supabase, and WordPress. Proven ability to design and deliver real-world solutions that improve efficiency, accuracy, and user experience.

TECHNICAL SKILLS

Programming: C#, Dart, JavaScript, HTML, CSS, SQL

Frameworks & Tools: ASP.NET Core MVC, Flutter, React Native (Expo), Firebase, Supabase, WordPress, Git

Design: Figma, Photoshop, Illustrator

Soft Skills: Problem-solving, teamwork, communication, time management

EDUCATION | **Grade 12 – Completed 2022** | **Diploma in Information Technology** – Central University of Technology (Graduate 2025)

PROJECT EXPERIENCE

ProjectX – Student & HR Management System

Designed and developed a full-stack system with a Flutter mobile app and an ASP.NET Core web portal. Implemented secure authentication, academic record access, and admin reporting, reducing manual paperwork.

LeavePulse – Employee Leave Management System

Built an automated leave submission and approval system with multi-level workflows, notifications, and reporting, improving transparency and approval turnaround time.

Library Management System

Developed an ASP.NET Core web system for borrowing, returns, and inventory management using role-based access control.

SemosaFM – Radio Streaming App

Created a Flutter mobile app with live streaming, recording, background playback, and offline listening.

Lottery Mobile Application

Built a Flutter app for number generation, result tracking, and win/loss statistics.

WordPress Business Websites

Designed and deployed responsive WordPress websites with theme customisation, plugins, and basic SEO.

WORK EXPERIENCE

Standard Developer (Web) – Martello Company (Jan 2023 – Jan 2025)

Developed and maintained WordPress business websites, customised themes, and ensured performance and updates.

Student Lab Assistant – Central University of Technology (Mar 2025 – Oct 2025)

Assisted students with C# and ASP.NET Core projects, debugging, and technical lab support.

Distribution Specialist – Community Initiative (Apr 2024 – May 2024)

Supported distribution activities and maintained accurate records.
