PROFESSIONAL SUMMARY

Software Developer and Mobile Application Developer with a Diploma in Information Technology (Cum Laude), currently completing an Advanced Diploma in IT. Full-stack experience across Flutter, React Native, Next.js, ASP.NET Core, and SQL, including shipping a production Flutter app to the Play Store during an internship at Kinetix Engineering Solutions. ISC2 Certified in Cybersecurity (CC), with a growing portfolio of independently built full-stack projects spanning mobile, web, and backend systems.

TECHNICAL SKILLS

Mobile Development: Flutter, React Native, cross-platform app development, Firebase, REST API integration, state management, responsive UI design

Languages & Frameworks: JavaScript, TypeScript, C#, SQL, ASP.NET Core MVC, Next.js

Databases: Oracle SQL, PostgreSQL, Microsoft SQL Server, NoSQL, Firebase

Security: ISC2 CC Certified — Access Control, Network Security, Incident Response, JWT, RBAC

Testing & DevOps: QA testing, defect logging, SDLC-aligned practices, Git, GitHub, Azure (in progress)

Productivity: Microsoft Word, Excel, PowerPoint, Outlook, Teams, OneDrive

WORK EXPERIENCE

Software Developer Intern — Kinetix Engineering Solutions PTY(LTD)

Mar 2026 – May 2026 | Bloemfontein, South Africa | Hybrid

- Contributed to the development and Play Store deployment of Past Question Paper, a cross-platform Flutter app, delivering a production-ready product to real end users.
- Built and maintained full-stack features using ASP.NET Core MVC (backend) and Flutter (frontend), resolving issues within active sprint cycles.
- Implemented JWT/RBAC authentication, applying ISC2 access-control principles in a live production environment.
- Ensured delivery quality through QA testing and defect tracking within Agile/Scrum sprints, collaborating in code reviews and sprint planning with senior developers.

Software Developer Intern — Work-Integrated Learning (WIL) — Central University of Technology

Jul 2025 – Nov 2025 | Bloemfontein, South Africa | On-site

- Designed and built LeavePulse, a full-stack leave management system (Flutter mobile app, Next.js web interface, ASP.NET Core API, Supabase/PostgreSQL), delivering the solution end-to-end during the placement. Leveraged AI-assisted development tools, including OpenAI, to accelerate UI prototyping, code refinement, debugging, and security best practices.
- Applied the full SDLC from requirements through to a working deliverable, across mobile, web, and backend layers.

Software Development Student Lab Assistant — Central University of Technology

Mar 2025 – Nov 2025 | Bloemfontein, South Africa | On-site

- Supported 30+ students weekly with C# and ASP.NET Core troubleshooting, communicating solutions across varying technical levels.
- Maintained lab environments and produced procedure documentation, escalating unresolved issues to lecturers and tracking outcomes.

Web Developer — Martelo Company

Jan 2023 – Jan 2025 | Alberton, South Africa | Hybrid

- Designed, developed, and maintained 5+ client websites using HTML, JavaScript, and related web technologies.
- Managed client communication and multi-account maintenance, including performance audits, backups, and content updates.

PROJECTS

CampusStay — Full-stack student accommodation platform — in progress

- Building a full-stack platform: ASP.NET Core 8 API (Supabase/PostgreSQL), a React Native/Expo student app, and a separate ASP.NET Core MVC provider portal, secured with JWT authentication.
- Implementing property listings and amenities data modelling, plus CRUD functionality for provider-side listings management.

PortalX — Student & HR management system

- Built a student and HR management system using Flutter, ASP.NET Core MVC, and Firebase for data storage and authentication.

EDUCATION

Advanced Diploma in Information Technology — Central University of Technology, Free State | Expected 2026 (In Progress)

Diploma in Information Technology — Cum Laude — Central University of Technology, Free State | 2025

National Senior Certificate (Grade 12)

CERTIFICATIONS

ISC2 Certified in Cybersecurity (CC) — All 5 Domains

Microsoft Certified: Azure Fundamentals (AZ-900)
