PROFESSIONAL SUMMARY

IT graduate (Diploma in Information Technology — Cum Laude, March 2026) currently completing an Advanced Diploma in IT, with hands-on experience in software development, team collaboration, and technical support. Recently completed a Software Developer Internship at Kinetix Engineering Solutions, building production features in an Agile/Scrum environment. I am a motivated self-starter who works effectively in team settings, communicates clearly, and delivers results under pressure. I bring strong computer literacy across the MS Office Suite, solid documentation and reporting skills, and a genuine commitment to contributing to business operations and growth. My ISC2 Certified in Cybersecurity (CC) credential demonstrates a commitment to ethical, responsible, and security-conscious work practices.

TECHNICAL & PROFESSIONAL SKILLS

MS Office Suite	Word, Excel, PowerPoint, Outlook, Teams, OneDrive — proficient
Operating Systems	Windows 10/11, Windows Server 2016+, Android, Linux (basic)
Communication	Written and verbal — technical documentation, reports, user guides
IT Support	Hardware troubleshooting, software installation, end-user support
Development	C#, ASP.NET Core, Flutter, JavaScript, Oracle SQL, PostgreSQL
Practices	Agile/Scrum, SDLC, QA Testing, Risk Management, Project Documentation
Security	ISC2 CC Certified — Security Principles, Access Control, Network Security, Incident Response
Soft Skills	Team collaboration, problem-solving, adaptability, attention to detail, working under pressure

WORK EXPERIENCE

Software Developer Intern — Kinetix Engineering Solutions PTY(LTD) Mar 2026 – May 2026
Bloemfontein, South Africa · Hybrid

- Assisted with daily development operations — building and testing features using ASP.NET Core MVC and Flutter within an Agile/Scrum sprint cycle.
- Supported admin and project tasks including sprint planning, technical documentation, API integration, and deployment notes.
- Collaborated in a team environment — participated in code reviews, architecture discussions, and cross-functional project delivery.
- Contributed to business growth solutions by implementing secure authentication (JWT, RBAC) and resolving software defects to improve application stability.
- Demonstrated strong computer literacy — used Git, GitHub, Visual Studio, and project management tools daily.

Student Lab Assistant — Central University of Technology Mar 2025 – Nov 2025
Bloemfontein, South Africa · On-site

- Assisted with daily departmental operations — supported 30+ students weekly in C# and ASP.NET Core programming practical sessions.
- Supported admin and project tasks — maintained lab environments, resolved software installation issues, and produced supporting procedure documentation.

- Worked in a team environment — collaborated with lecturers, escalated issues appropriately, and contributed to a productive learning environment.
- Applied strong communication skills to explain technical concepts clearly to students with varying levels of understanding.

Web Developer — Martelo Company

Jan 2023 – Jan 2025

Alberton, South Africa · Hybrid

- Designed, developed, and delivered 5+ business websites — managed ongoing maintenance, performance monitoring, and client communication.
- Supported project tasks including performance audits, backup management, and content updates for multiple SME clients simultaneously.
- Demonstrated ability to work under pressure — managed multiple client deadlines and resolved issues efficiently to maintain uptime.
