PROFESSIONAL SUMMARY

Software Engineer with hands-on experience building mobile applications, web applications, backend systems and databases across the full software development lifecycle, from requirements and design through development, testing, deployment and maintenance. Also experienced in server administration, with a focus on secure, reliable software. ISC2 Certified in Cybersecurity (CC) and Microsoft Certified: Azure Fundamentals. Open to opportunities and relocation.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET, ASP.NET Core (MVC), TypeScript, JavaScript, HTML, CSS, Flutter, React Native, Next.js, Laravel, WordPress

Databases & Backend: SQL, PostgreSQL, Firebase, Supabase, REST APIs

Security: JWT authentication, Role-Based Access Control (RBAC), cybersecurity fundamentals

Cloud & Infrastructure: Microsoft Azure, Windows Server, Active Directory, DNS, DHCP, Hyper-V, file services, network configuration

Practices: Agile/Scrum, software testing, debugging, deployment and maintenance

EXPERIENCE

Software Developer Intern

March 2026 – Present

Kinetix Engineering Solutions (Pty) Ltd | Bloemfontein

- Develop and maintain Flutter mobile applications, including contributing to the development and Google Play Store deployment of the Past Question Paper app.
- Build and enhance web and backend systems using C#, ASP.NET Core MVC and REST APIs in an Agile/Scrum environment.
- Implement secure authentication and authorization using JWT and Role-Based Access Control (RBAC).
- Design, query and maintain SQL databases, integrating backend services and APIs to support application functionality.
- Contribute to in-house systems and business solutions across mobile, web and backend platforms.
- Develop and maintain WordPress websites, including customization, updates and ongoing improvements.
- Participate in testing, debugging, deployment and maintenance throughout the development lifecycle.

Software Development Student Laboratory Assistant

March 2025 – November 2025

Central University of Technology, Free State | Bloemfontein

- Supported 30+ students weekly with C# and ASP.NET Core, diagnosing issues and explaining solutions to users with varying technical backgrounds.
- Maintained computer lab environments, resolving software installation, configuration and application issues.
- Created and maintained technical procedure documentation to help users and staff troubleshoot common issues.
- Guided students on coding best practices, debugging techniques and problem-solving approaches.

Web Developer

January 2023 – January 2025

Martelo Company | Alberton

- Developed and maintained business websites using WordPress, Laravel, HTML, CSS and JavaScript, tailored to client requirements.
- Customized WordPress themes and layouts to improve functionality, usability and presentation.
- Performed ongoing maintenance, updates, backups and troubleshooting to keep sites performing reliably.
- Conducted website audits, resolved technical issues and communicated with clients on updates and requirements.

SELECTED PROJECTS

- **Past Question Paper** – Cross-platform Flutter application deployed to the Google Play Store as a production-ready app used by real end users.
- **LeavePulse** – Full-stack system with a Flutter mobile app, Next.js web interface, ASP.NET Core API and Supabase/PostgreSQL database.
- **CampusStay** – Student accommodation platform (full-stack). Portfolio: princepro-cr.github.io

EDUCATION

Advanced Diploma in Information Technology

January 2026 – Present

Central University of Technology, Free State

Diploma in Information Technology (Cum Laude)

January 2023 – March 2026

Central University of Technology, Free State

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- ISC2 Certified in Cybersecurity (CC) – Security Principles; Incident Response, BC & DR; Access Control
